#### Struktur / Structure

28/5-18/9: In the old ironworks structure was essential. Well developed high-technological systems made the production run smooth. Avesta Art 2016 illuminates structures and it's many facets for instance in society, social, texture, science, technique, power and gender. The exhibition offers artworks in different techniques, expressions and angles of the subject. Avesta Art is a contemporary international art exhibition where the old industrial history and it's remnants meet and melt together with contemporary expressions of art.
